B) and email a signed copy to Roxana Garcia, Administrative Aide, Instructional Resources and Materials Department, rgarcia4@sandi.net

Brief Explanation:

In accordance with Education Code 60119, each school district's governing board must hold a public hearing no later than the eighth week of the school year to determine, through a resolution, whether each pupil in the district has sufficient textbooks or instructional materials, or both, in the following subjects: mathematics, science, history/social science, and English language arts. According to Williams Legislation, sufficient textbooks or instructional materials means each pupil, including English learners, must have a district-adopted textbook or instructional materials, or both, to use in class and to take home. Access to two sets of instructional materials is not required.

To ensure your school is sufficient and meets the requirements of the law, it is necessary for you to complete the attached Principal Verification Statement-Instructional Materials Sufficiency – Gr. TK-5 and Uniform Complaint Procedure (UCP) posting (Att. B) by September 17, 2021, and email a signed copy to Instructional Materials Office (IMO) Administrative Aide Roxana Garcia, rgarcia4@sandi.net. *Note: Schools subject to a Williams team audit by the San Diego County Office of Education are not required to participate in this process. Compliance will be determined by the Williams team visit.*

This deadline is critical to meeting the requirements of Education Code 60119 and receiving State instructional materials funding.

Below is an outline of the process to assist you.

The Instructional Materials Office staff has completed the Instructional Materials Sufficiency Survey (Att. A) for each site using inventory data of core student instructional materials from the Destiny Textbook Manager and enrollment data from PowerSchool.

Please Note: Schools with Dual Language programs using district-adopted instructional materials in languages other than English will be provided a customized biliteracy inventory form to report data in both languages. Schools using core instructional materials in languages other than English are required to complete the student enrollment and teacher counts for each applicable language to ensure sufficient instructional materials are available for each student.

The Instructional Materials Office will:

- No later than Friday, September 17, 2021, provide each school, by email to the principal or designee, a completed 2021-2022 Instructional Materials Sufficiency Survey – Gr. TK-5 (Att. A). The data will be based on inventories of core student instructional materials listed in Destiny Textbook Manager and PowerSchool student enrollment for **September 3, 2021**.

Schools that do not have their core textbooks barcoded and/or are without access to Destiny must compile this data and complete Attachment A.
